PROFESSIONAL EXPERIENCE

Summary

More than 27 years of experience in cultural resources management, involving archaeological and historical field work, research, analysis, evaluation, and reporting; cultural resources constraints analyses and management plans; archaeological overviews and research designs; Native American ethnographic interviews and studies; and popular syntheses of cultural resources work. Archaeological fieldwork or research in 29 California counties in the San Francisco Bay Area, the North Coast Ranges, the Central Valley, and the central, southern, and eastern Sierra Nevada. Directed prehistoric archaeological evaluation and data-recovery excavations in Calaveras, Marin, Sacramento, Sonoma, and Tuolumne counties. Author or co-author of more than 65 cultural resources management reports. More than 36 years of experience as a substantive editor and copyeditor, writer, and researcher.

Current Position

Senior Staff Archaeologist/Staff Editor, Anthropological Studies Center, Sonoma State University, Rohnert Park, California (October 1994 to present). Management of cultural resources projects, including development of scope, direction of project personnel, and responsibility for budget and report quality. Research, analysis, and writing for prehistoric and historic archaeological, historical, historic architectural, ethnographic, and ethnohistorical studies for management, technical, academic, and public audiences. Preparation of documents and reports for federal- and state-level cultural resources management projects, including proposals, research designs, archaeological site evaluations, and data-recovery interpretations for prehistoric and historic archaeological studies. Critical review and technical and substantive editing of ASC staff and consultant reports; coordination of report production.

Previous Professional Experience

Archaeological Consultant. Stewart/Gerike, Consultants, Mountain Ranch, Calaveras County, California (January 1992 to October 1994). In partnership with Christian Gerike, ran small cultural resources consulting firm in the central Sierra foothills. Designed and implemented archaeological studies, including surveys, evaluation and data-recovery excavations, and planning studies; provided cultural resource research, writing, and editing services; and participated in supervision of employees and daily decisions of firm's operations.

Senior Staff Archaeologist/Editor. Archaeological Services, Inc., Stockton, California (June 1990 through December 1991). Supervised archaeological surveys; analyzed and presented survey and excavation results; trained field personnel; developed research designs; prepared cultural resource sensitivity studies; developed proposals and budgets; conducted historical research and writing; and provided technical editing.

Staff Archaeologist and Project Coordinator. Sonoma State University, Anthropological Studies Center, Rohnert Park, California (1982 to 1990). Coordinated a variety of cultural resources projects, including numerous large and small surveys, prehistoric site test excavations, and a prehistoric site data-recovery excavation, for federal, state, and local agencies. Responsibilities included proposal writing and budget development; research design; recruitment and supervision of crew; contact with clients; execution of field tasks; data analysis; National Register site evaluations; and report writing and production. (Also served as archaeological fieldworker on a variety of university projects between 1978 and 1990, and as ethnographic interviewer between 1978–1980.)

Researcher/Writer and Technical Editor. Sonoma State University, Anthropological Studies Center, Rohnert Park, California (1978 to 1990). Research and writing assignments involving ethnographic, archaeological, historical, and contemporary topics. Products included prehistoric archaeological overviews for the Office of Historic Preservation; and several publications on archaeology geared toward the general public. Substantive and technical editing of historic and prehistoric archaeological survey and excavation reports, ethnographic and historical overviews, and scholarly articles.

Editor. Science Curriculum Improvement Study (SCIS), Lawrence Hall of Science, University of California, Berkeley (1967 to 1974). Substantive and technical editing of educational and promotional materials for an elementary-school physical and life science curriculum-development program funded by the National Science Foundation. Newsletter editor for a publication for educators with a circulation of 50,000.
